PROFILE

16-year-old A Level student at Birkenhead Sixth Form College, a top 3 sixth form college nationally, studying Statistics, Computer Science and Economics. A confident communicator who is comfortable leading and organising others, with a strong record of being trusted with responsibility. Focused on building genuine technical skill as a developer, with a Computer Science degree and a job in cyber security as the goal. Available for work experience and part-time work.

DEPLOYMENT			Docker			

EDUCATION

Birkenhead Sixth Form College

Sept 2026 – 2028

A Levels in Statistics, Computer Science and Economics

- Subject combination chosen deliberately to support a Computer Science degree: programming and systems, the mathematics behind data, and the reasoning behind how systems behave.
- Predicted grades pending, issued after the first internal assessments.

GCSEs

Awarded 2026

Nine grades · average 5.67 · eight of nine at grade 5 or above

German	9
English Language	7
Combined Science (Higher)	6–6
Mathematics (Higher)	5
English Literature	5
Geography	5
ICT	5
Design & Technology	3

PERSONAL SKILLS

Communication

Teamwork

Bringing people together

Reliability

Working under pressure

Quick learner

EXPERIENCE

Babysitting for family

Voluntary, ongoing

- Trusted with the unsupervised care of a younger sibling, responsible for safety and routine.
- Dependable and able to use sound judgement without direct supervision.

INTERESTS

Rugby prop, Anselmians RUFC Junior Colts

Eastham, Wirral

Regular training and matches in the junior colts side of an established Wirral club. A position built on physical commitment, discipline and reliability to the rest of the pack.

Hiking

Casual walks

Walks in the hills whenever the chance comes up. A break from screens and a way to stay active.

OBJECTIVE

Computer Science degree from 2028, followed by a job in cyber security, focusing on defensive security and threat analysis, backed by professional certification.
